

Proposed Paint Colours for External Extraction Flue and Ducting (Condition 5)

Planning Permission Reference Number: 20240080

Condition 5: Details and finish and colour of external elements of extraction system.

We propose the following specifications for the external elements of the extraction flue and ducting:

Colour Details

- **Colour:** Hammerite **Black Matt** Multi-Surface Exterior Metal paint, 750ml (B&Q)
- **Paint Type:** High-quality, weather-resistant, matte finish paint suitable for metal surfaces.
- **Colour Reference:**

Hammerite Black Matt Multi-surface Exterior Metal paint, 750ml

Details:

- The colour is non-reflective and designed to minimise visual impact, ensuring the external extraction system blends harmoniously with the surrounding environment.
- The paint will be applied according to the manufacturer's recommendations to ensure durability and a consistent finish.

Please let us know if the proposed colour and finishes meet with your approval or if any additional information is required.
