Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments: In March I previously objected to the building of all these houses and still strongly object for all the same reasons.
I felt I had to write again as have just become aware that if this destruction of our Greenbelt goes ahead an area of houses is going to be named SKYLARK FIELDS.

Really that is beyond belief !!

What type of people are planning this . One of my main reasons for objection is because of the skylarks that live on this field.

A skylark is a bird that due to its recent dramatic population decline is UK conservation status RED. This is a unique special bird that sings as it soars in the sky above you. A beautiful special sound.

"Destroyed Skylark Fields" would be a more appropriate name. If future generations ask why was it called Skylark Fields they can be told because that is what was destroyed to build the houses here.

Once they are gone they are gone forever.

Save the Skylark from extinction.
Save Nature for everyone
Save Meopham from over development
Save Our Mental Health by keeping green open spaces
Save the Planet from humans destroying it

Kind regards
