Reasons for comment:

Comments:	<p>This development is extremely large and out of all proportion to the available infrastructure in the village.</p> <p>The roads at the point of the development are already an accident black spot that required road alterations less than a year ago.</p> <p>It is two heavily used junctions where additional traffic from the proposed estate would cause even more problems.</p> <p>The parade of shops opposite the development is used by customers from a large surrounding area. The lack of public transport requires most people to use cars and the parking is currently a significant problem.</p> <p>Deliveries to the shops are currently made by vehicles obstructing the A227.</p> <p>The land is currently used for agricultural purposes and the development would mean a reduction in farm produce reducing sustainability.</p> <p>Two local Primary schools are adjacent to the proposed development which would increase local demand and cause additional traffic problems and pupil safety.</p>
