Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	I strongly object to the addition of 500 new homes in Meopham. It is extremely disheartening and concerning that Gravesham planning is not prioritising a full Environmental impact assessment on our green belt land which is vital to ensure food production continues and pollution lowered. The developers have not considered a 25% rise in village population, which has already increased in the recent years having a detrimental effect on already poor infrastructure. With extra pressure on roads due to recent rise of coffee/nail bars causing triple the traffic with a single road joining the village and tight junctions. In recent years due to the expansion of baristas and nail bars at the Parade, has attracted individuals from across the county and beyond which is causing more pollution in the village and a negative affect on parking and caused damage to grass banks by individuals parking illegally and subsequently increased road rage and potential RTC. The Village would not be able to function safely with the development of 500 extra homes and recent news of the Lower Thames Crossing affecting the A227, therefore harming wildlife and damaging the last of the rural landscapes in North Kent, by turning it into a Town and cut through, destroying areas of outstanding beauty.
