Reasons for comment:

Comments:	Impaction of people on a small plot of land Parking how many vehicles? Per dwelling If each dwelling has X amount of bedrooms should they not be parking spaces on this site to accommodate adequate parking Not in character of area Opens up other land possibilities nearby to do the same How are you going to monitor that no more caravans are also added to this plot Access in and out for a small plot with a larger amount of people on site especially as parking is restricted on the road opposite Water supply electric supply sewage supply ?? Enviromental disposal of rubbish Already caravan dwellings going onto land without permission if they are doing this what stops them doing what they want to do on that site Impact on neighbouring properties and opposite properties with disruption of vehicles going in and out No turning point on Land has been shown for vehicles to drive in and off safely Shared room for Gypsy travellers Leave a very vulnerable opening of use how are they going to park and how many people will be allowed in the shared room? Will it then become somewhere where they sleep overnight? and more people start to live on this site.
