Alpha Flow 60 MM Thick – Available in Three Size Single Packs.

by Brett

£374.84

Price Excl. VAT

The popularity of Alpha rustic multi sized paving, now combined with permeable benefits, helps create a sustainable drainage system. This allows surface water to drain into a permeable sub-base, thereby reducing the impact on local drainage networks.

This is a special order item and non-returnable.

Alpha Antique Circles are also available. Alpha Antique Kerbs are also available. Sub-base Material. Permeable Chippings. Main Image is Alpha Flow Brindle.

Key Information

- Manufactured and tested to BS EN 1338: 2003
- Install in accordance with BS 7533
- Surface permeability 3386 mm/h when tested to BS DD 229: 1996
