Thank you for consulting us on this application.

The site lies within the historic core of Gravesend which has archaeological potential and the building is of 19th century data but not listed. Due to the relatively limited footprint of the works I consider it unlikely that the proposals will have a significant archaeological impact and consider it unlikely that archaeological mitigation works would add significantly to our understanding of the site or building. I therefore have no archaeological objections to the proposals. No doubt your Conservation Officer will comment on the appropriateness of the proposals within the Conservation Area.

Yours sincerely.
