Reasons for comment:

Comments:	The land is agricultural. The land is Green Belt land. The land is open countryside land. The proposed designs are not in keeping with the local area and no attempt has been made to provide an aesthetically pleasing solution. Additional access onto a narrow highway is a health and safety issue. There is no solution to deal with noise, light and waste pollution. The site can easily be seen from the main road and from Norwood Lane to the southern side. There is an injunction on the land restricting residential use and the council need to act to uphold the law and return the site back to its rightful use. Since this application there is further development on the site and no doubt additional caravans will appear soon. The council should act immediately to stop this happening. There is no consideration for the local ecosystem and wildlife.
