I wish to **object** to planning application number **20251233** for the reasons stated below:

The plan to build on/along Downs Road is not a good or safe idea as the land/structure of the land is at risk of flooding. Which will therefore damage the infrastructure of houses/building work leading to more resources being needed on a more regular basis and also unsafe housing for those living in those houses.

It will also result in an increased amount of pressure on the doctors surgery, which is already at full capacity and unable to occupy others.

Not only will it put more strain on the

land and doctors surgery, but you will also be stealing homes from the wildlife who have lived there for a much longer period of time.

Personally, I believe that the proposal of this building plan is selfish and reckless, I also do not believe it to have been thought through appropriately.

I understand people need housing, but find somewhere with safe foundations that does not uproot a local community which was doing perfectly well before and will continue to if this does not proceed.
