'Live' Traffic Situation on Gold Street 26.9.24 – Closing Deadline Consultation

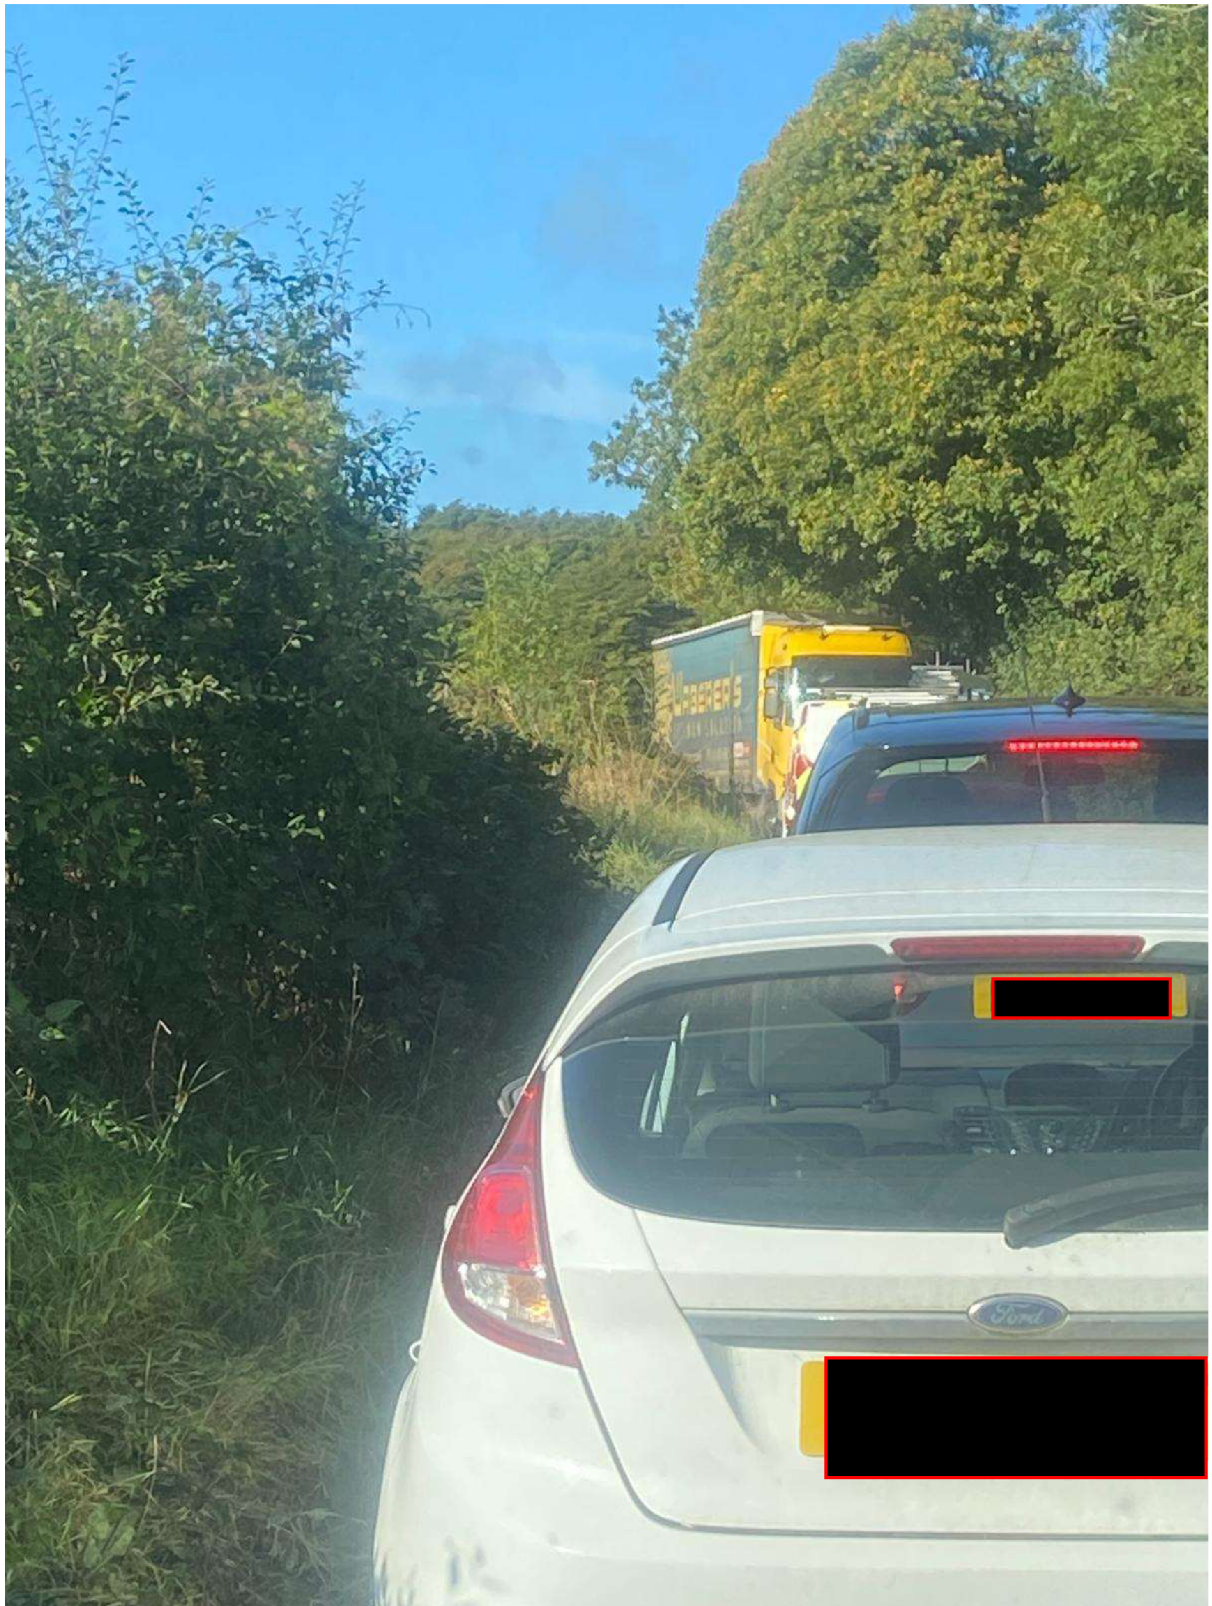

Accident on A2 leads to lanes being log jammed for several hours:

- **Coach stuck in Gold Street and had to reverse back down lane, but not before the single track lane had to be cleared of all the cars behind it. This is clearly not suitable for HGVS, whatever the law or 'regulations' say. They must be changed.**
- Motorists take to breaking chains on locked field gates to park their stranded cars. Anarchy.
- **Ancillary activities allowed under permitted development apparently include external weddings – 250 people could attend and would result in exactly this scenario. Indian weddings have 400-500 guests.**

Coach trying to reverse all the way back down Gold Street
Cars entering peoples properties to create passageway
