Details of the pre-application advice received

Pre-app enquiry related to a two storey extension to the rear which the case officer considered to be a large scale extension which might not meet the requirement for a modest extension without reductions in the scale of the extension. Design elements of the proposal were considered to be acceptable. The main issue being the depth of the extension. The applicants proposal was that existing outbuildings would be removed and the floor space used in the extension. The pre-app briefly touched on this but didn't give this much thought or a full response on whether the council support this.

The pre-app indicated the house is in a National Landscape Area with a paragraph about impacts on this, but later clarification confirmed that the house is not in a NLA.

At the pre-app meeting discussion took place about drive alterations and this was covered by the response.

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
