Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I am concerned about the following point should the development go ahead:
<ol style="list-style-type: none">1. The negative impact on the environment: the land is home to so many species and animals including bats and birds	
<ol style="list-style-type: none">2. The proposal goes against paragraphs 116, 156 and 198 of the Government National Planning Policy Framework	
<ol style="list-style-type: none">3. The site does not meet the criteria for grey belt as it has never previously been developed.	
<ol style="list-style-type: none">4. Some of the adjacent woodlands is owned by the school and there is misrepresentation of this in the application. The application would cause significant damage to the schools woodland.	
<ol style="list-style-type: none">5. Pollution levels on the A227 would rise considerably with no suitable public transport links there would be a significant rise in cars using an already incredibly busy road.	
<ol style="list-style-type: none">6. Drainage and flooding, the application would give a greater risk of flooding for surrounding areas as the current site provides drainage for Culverstone Valley.	

Kind regards
