Reasons for comment:

Comments:	Absolutely not! It's a joke how this was allowed in the first place! There is hardly ANY parking for residence of this area, the last thing we need is a load of delivery bikes & cars parking wherever they like, however they like across double yellows! Some people already park like idiots around here, don't need any more! Apparently there's been other applications from people wanting to put fast food takeaways on the corner of Singlewell and cross lane west next to the barbers and they were fully refused due to parking & the smelly yet this one was allowed?!? People going into the barbers already park on the double yellows causing traffic! Residents in the area have petitioned in the past not to allow this establishment and yet it's up?! One of the other complaints to not allow the use of extra vehicles is extra pollution in this already busy area, there's a number of schools nearby so children shouldn't have to worry about crossing the road due to inconsiderate parking. Another objection is the fact that already I'm a few houses down on Singlewell and even I can smell the fat and grease from that shop! It's disgusting! I don't want to have to smell it anymore than I am now, preferably never again! Going back to the point about children, is that I've only seen a handful of people use this place and they all happen to be children from the local school, St George's. I thought the government wanted to reduce the rate of childhood
-----------	---

obesity not increase it?

It's very obvious this should not have been allowed to go ahead in the first place and the fact it wants to expand is a joke! If this is allowed then there is something very dodgy going on & I shall be investigating!

Kind regards
