## Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	<p>This will create a higher demand on resources and services that are already stretched e.g. shops gps schools etc. Bus services that are already barely coping will be placed under more duress.</p> <p>If services are increased our council tax will go up to accommodate the addition of extra services. Hard working people pay enough as it is.</p> <p>Introducing more cars and houses inevitably bring more traffic, accidents and crime. Thus placing existing residents at risk. A risk they were not exposed to.</p> <p>On a larger scale the reducing in local food production will hurt local farmers and retailers. It will also take away customers ability to source local ingredients.</p> <p>Part of the reason people move to Meopham is the green areas and farmland. It seems an utter nonsense to get rid of these. Many move here to escape the concrete that is london.</p> <p>This will deter families from moving here in the future.</p> <p>The roads that exist already struggle to cope with the current traffic. If this plan goes ahead it will cause no end of congestion. Forcing residents to leave earlier and earlier for work and school. This is not fair.</p>
