Reasons for comment:

Comments:	This development is close to a special school for Autism and the noise and housing so close to this school will be detrimental to the children Also there are two other schools in close proximity the this area and exit on already very congested B road all exits on two the A227 Junction by the parade of shops In the area is a small carpark serving the local shops all exits on to a narrow congested road where there has serious accidents recently The houses proposed will all have more than 1 car as the bus service is poor and none on Sunday The employment opportunities are limited This development will urbanise the rural open countryside in a area Of Kent Downs landscape The water and drainage system is at near capacity There are frequent power cuts all these services will be detrimental to to the existing population The narrow railway bridge at Longfield hill is already dangerous The road network apart from parts of A227 is narrow and often single track for all these reasons I strongly OBECT to this development
