Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	The access for these houses is a small country lane which will not be able to cope with the level of traffic the development will generate. The A227 is already a busy road and if for any reason it is blocked traffic is diverted onto single track roads. These roads often become gridlocked and this development will increase traffic congestion. The development is sited on a popular walking route through the village and will completely change the rural feel of the Hook Green area. The development will also put a strain on local resources including commuter trains and GP services.

Kind regards
