Reasons for comment:	
Comments:	This will have a huge impact on traffic,the A227 is always busy and frequently has road works/temporary traffic lights which can turn a 10 minute journey into an hours journey or on many occasions, longer than that.This impacts on doctors appointments,children getting to school on time and people being late for work. We already have an abysmal bus service so how are all these people going to travel unless they have cars which will mean more congestion on the A227. It is very difficult to get a doctors appointment at the moment so the situation will get worse with hundreds more people living in the area. We currently live in a beautiful village,that is the reason we moved here.It will no longer be a village but become a small town. We should not be using agricultural land for houses,it needs to be retained and used for agriculture purposes .It is very important that we grow our own food,use the land for cattle etc and not have to rely on imports from abroad. We currently live in an area of outstanding beauty,if this development goes ahead we will lose wildlife,flora and fauna and that needs to be protected not decimated.

Kind regards
