Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	I wish to object to the erection of this building on several counts: Privacy, there is currently metal fencing along the boundary onto our property which provides very little privacy, with the increased footfall in this area I am concerned about people being able to look directly into our property. Light pollution, currently have to put up with bright green emergency light shining and street lamp from car park, concerned this will increase with the addition of this building. Noise, this area is currently not used very often but obviously with this new building more pupils will be in the area waiting to go into class and leaving the classrooms. Also concerned the drama suite will be rented out at weekends and school holidays increasing the number of people using this area. I note it is stated there will be no increase in the number of pupils but there will definitely be an increase in the number of pupils using this area. Erection of a privacy panels/solid fence panels may help to alleviate these issues.
