I wish to **object** to planning application number **20251233** for the reasons stated below:

I'm not sure why it is thought extra housing is needed in an area with little infrastructure. Not enough room in primary schools, not enough transport for children to be taken to senior schools. We have an unreliable bus service. The train station is not easily accessible. This development would increase transport, traffic jams, danger to children especially in the darker nights. No ^{extra} parking facilities. Farmland is needed for growing sustainable food and of course drainage, electricity, gas etc. No consideration is being considered for these services. No capacity for our GP surgery who have now made a statement that they do not have capacity for new patients. Also extra traffic on the A227 especially with a larger development in Mepham being considered. Traffic will increase on the New Barn road. Not to mention of a new tunnel eventually being built. Overall the objections are such that overcrowding in all forms, traffic, utilities, parking etc. Please take this as my objection.
