Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I wish to object to this planning application as I believe it will have an adverse The area is green belt area and therefore should stay as such and be protected. I believe that this application if granted would affect the area greatly. At present the GP surgeries and schools in the area are at full capacity. The facilities for the area area already stretched including water, internet and waste. They are proposing a Primary school on the site but the Secondary schools in the area are at capacity with Meopham already having had an extra building added. When I leave for work there are cars queuing past the end of my road making it difficult to exit. The roads in the area already struggle with the traffic that uses it by adding extra traffic it will affect all villages in the area as the roads are mainly narrow. Our local hospitals are currently at capacity and will be unable to cope with extra housing. The area is also known for housing wildlife such as badgers, barn owls, bats and many other wild species. This is adversely affect these animals by removing their habitat. The amount of pollution will also be increased. We are currently experiencing more and more power cuts in the area and I am sure this will only increase with the added needs of extra housing.

Kind regards
