Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	Dear Sir/Madam I wish to formally submit my objection to the retrospective planning application concerning the land situated south of White Post Lane, which includes White Post Farm, White Post Paddocks, White Post Stud Farm, and associated properties owned by [REDACTED], as documented in the Land Registry. For over twenty-three years, residents have witnessed numerous planning applications that have resulted in failures in enforcement and a consistent disregard for established High Court Injunctions. This recent application represents yet another attempt to manipulate the planning system, and I respectfully urge the council to maintain the integrity of our valuable green belt area. I have observed that unauthorized tree work has caused substantial damage to the hedgerows, with approximately eighty to one hundred trees being cut down or chainsawed on the site and along White Post Lane. This destruction has resulted in a significant amount of debris being left in the area, which disrupts the natural habitat and poses safety hazards for pedestrians. In addition to the environmental implications, the essential services on the site, including waste collection and sewage systems, are inadequately managed. Rubbish and industrial waste are frequently incinerated rather than properly processed, raising serious environmental concerns and posing health risks to residents of Sole Street and Meopham. Over time, the Lane in question has undergone significant alterations, primarily due to frequent tarmacking of the traveller's site, the installation of five cesspits in the last six months, and the regular presence of heavy goods vehicles accessing the site. Additionally, the presence of eight-foot-high close-boarded fences, eight-foot-high brick-built entrances, piers and gates, and a fifteen-foot-high CCTV tower should not be permitted in a semi-rural setting.
-----------	--

This constant activity has not only altered the physical landscape but has also led to an environment where safety is often compromised. Blockades have been established on the Lane, resulting in intimidation directed towards myself as a disabled individual. There appears to be an apparent disregard for planning laws and the needs of users who rely on this Lane for accessibility.

This area is designated as Green Belt and ought to remain so without reclassification. I strongly recommend that this application be denied.

Kind regards
