Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	This planning application is an objectionable use of this land; the number of projected dwellings is so large as to constitute a village in itself. This will result in associated pressures on local services such as roads, health & environmental. Additionally , it will completely change the character of the village of Meopham. It would become a town. Finally, it must also be taken into account that the combination of any works within this proposal would be in addition to the massive project not far away, called the Lower Thames Crossing and this would result in intolerable pressures for the surrounding countryside and villages.

Kind regards
