| Reasons for comment: | |
| Comments: | <p>This proposal conflicts with key elements of the National Planning Policy Framework, which requires developments to respect the character of the local area, protect residential amenity and avoid over-intensification of use (NPPF §§126-130). The introduction of supported young adult accommodation is materially different from the existing pattern of single-family dwellings and risks fundamentally altering the residential character of the road. In addition, the likely increase in occupancy, staff movements and visitors raises legitimate concerns about parking pressure, noise and traffic safety. The council also has a duty under NPPF §111 to ensure proposals do not create unacceptable highway impacts, which has not been evidenced in this application. Given the applicant's previously stated intention for multi-occupancy use, there is reasonable concern regarding incremental intensification without adequate community consultation. For these reasons, I respectfully request that planning permission is refused.</p> |

Kind regards
