Description

Please describe details of the proposed development or works including any change of use

With the help of the local council, I am adding a storage unit to be temporarily situated right behind my shop till the run the premises. The area we are placing the container cabin is currently not used for anything and we are utilising the space to add more room to our shop storage. The storage container is vital to the shop due to not having enough room to follow the standard health and safety procedure at work place. The container cabin will be situated away from the public and only be accessed by the shop. Cabin to be fitted with Shop existing Post office intruder alarm system, night time automatic lights, CCTV surveillance. The cabin will come pre-made and ready to be used. The electrical certificate was provided by the company we purchased the container from. All the windows and doors are protected with metal gates and locks. The container cabin is 24x9 feet in dimension from the outside.
