Reasons for comment:

Comments:

There is already a travellers camp within half a mile that is less than 50% full - so there is no need to build more

This proposal conflicts with the Development Plan & National Policy, including the Planning Policy for Traveller sites.

It seeks to change open Green Belt into a permanent residential caravan site - this is inappropriate development & harmful unless special circumstances exist - which have not be demonstrated.

The site is located in open Countryside outside defined settlement boundaries & therefore allowing this permanent residential use is contrary to the Green Belt designation & policies within the Gravesham local plan.

The applicants have caused harm to the wildlife & multiple trees in blatant disregard for the planning rules that all other residents abide by & you are the only authority that can stop them from doing more damage & their threats & bullying.

We already suffer from flooding caused by the lay of the land, concrete & tarmac & no suitable drainage & we rely on the trees & Countryside to absorb this

excess.

This application should be refused for them as it would be for me had I carried out a retrospective application after such damage.

Kind regards
