Comments Details

Commenter Type:	Neighbour
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	I support the application. The site is a well established industrial area with current B8 use. The application site was my scaffolding yard from 2003 to 2022. We operated 12 LGV lorry's and 8 trailers 24 hours a day and also during that period had a racking installed with an upper deck fully enclosed with a roof which was a similar size to the proposed structure. There is a shortage of commercial and industrial spaces and areas like this must be used to their potential. In the grand scheme of things the use will be barely noticeable considering what's going on in the transfer site next door with a monstrous building, countless planning breach's and 200 daily vehicle movements.

Kind regards
