### Reasons for comment:

Comments:	I am extremely concerned about the impact a new development of 100 homes will have on the local area. Access on to the A227 will cause further congestion on an already busy road which is sure to get even more traffic when the Lower Thames Crossing is under construction. More traffic would be a hazard to emergency services coming into the area. I understand that this development could cause flooding to the local area. This is very worrying for people living nearby. Would the local infrastructure cope with a new development? I am sure the facilities would be stretched even more than they are now. Another consideration is the impact to the natural environment. We need to keep our Green Belt areas. The South East is already overcrowded and we need the countryside for the well being of the local population. Please do not build any more houses in this beautiful area of Kent.
