| Reasons for comment: | |
| Comments: | <p>This development that is set in a very rural area is unlikely to be able support job opportunities for residents who do not have a car as the bus service is very poor. I believe the local GP surgery is already working at capacity and I guess so are the local schools. So many extra residents is likely to strain the service making it even more difficult to get an appointment.</p> <p>Meopham is likely to lose its village status with other large developments as well as this one being planned.</p> <p>The A227 is already a very busy road made much worse if the M20, M26 or M2 has a problem, as the road gets used as a way to avoid the problem.</p> <p>There are very few social amenities available especially for young families</p> <p>I believe this development infringes green belt land and so is detrimental to all wild life.</p> <p>Development should take place on brown sites before considering rural areas, such as Gravesend old hospital site that has become a home for birds and is a shameful eye sore.</p> <p>I don't believe that the developers will provide the amenities such as a new GP surgery to support the incoming residents.</p> <p>I object to losing our precious countryside as once it's gone, it's gone</p> |

Kind regards
