Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	<p>it is farcical to think that 100 new homes in the proposed location will have an acceptable impact on the local environment.</p> <p>there are already hundreds of detailed objections and comments on this application so im not going to repeat them all in mine, but, already, the roads cannot cope, the local infrastructure cannot cope, Culverstone Green facilities are already unusable due to too many people from surrounding areas like Vigo using them.</p> <p>the drainage proposal is NIT FIT FOR PURPOSE at all. existing dirt lanes have spring points that will become even worse with the run off from these driveways and roads, and, the waste water (grey and black) will pollute the area terribly.</p> <p>you CANNOT link these houses to mains sewers as they will be 25+ meters below any that exist in Culverstone.</p> <p>build them somewhere else nore suitable</p>
-----------	---

Kind regards
