

Application: 20250110

**TOWN AND COUNTRY PLANNING ACT 1990
THE TOWN AND COUNTRY PLANNING (DEVELOPMENT MANAGEMENT PROCEDURE)
(ENGLAND) ORDER 2015 (AS AMENDED)**

NOTIFICATION OF GRANT OF PERMISSION TO DEVELOP LAND
--

To: **Mr P Cash
C/O Mr Simon McKay, Perfect Pitch Planning Ltd
Studio 1
305a Goldhawk Road
London
W12 8EU
United Kingdom**

TAKE NOTICE that the **GRAVESHAM BOROUGH COUNCIL**, the Local Planning Authority under the Town and Country Planning Acts, has **GRANTED PERMISSION** for development of land situate at:

**Land South Of Pear Tree Lane
Pear Tree Lane
Shorne
Gravesend
Kent**

and being **Change of use of the land for the stationing of 2 static homes, 2 touring caravans and shared day room for Gypsy/Traveller occupation. Associated hard and soft landscaping.** Your application dated 21st February 2025 is permitted subject to the following:-

1. 1. The development hereby permitted shall be carried out in accordance with the following approved plans and particulars:

Planning Application Form
Planning Statement
Drawing No. 2024-PPP028v1-LocBlock - Location and Block Plans
Drawing No. 2024-PPP028v1-Mobile - Example Mobile Home
Drawing No. 2024-PPP028v1-DayRoom - Proposed Day Room
Drawing No. 25021-HOD-XX-ZZ-DR-C-5100 P01 - Engineering Layout
Foul Drainage Design Covering Letter
Preliminary Ecological Appraisal

Reason: For the avoidance of doubt and in the interests of proper planning.

2. Within 2 months from the date of this decision notice, a hard and soft landscaping scheme, including a timetable for implementation and completion, shall be submitted to and approved in writing by the Local Planning Authority. The scheme shall include the following:
 - The retention of existing boundary planting.

- Details of additional native tree, hedgerow and shrub planting around the site boundaries and to fill any gaps, to include their quantity, size and arrangements for aftercare.
- Details of biodiversity enhancements such as hedgehog, bird and bat boxes, and log piles.
- Details of hardstanding/surfacing.

Any identified trees or plants that die, are damaged, removed or become diseased within five years from the first occupation of the caravans hereby permitted shall be replaced with a species of a similar size and species during the next available planting season. The landscaping works shall be carried out in accordance with the approved details before any part of the development is brought into use in accordance with an agreed implementation programme. The completed scheme shall be managed and/or maintained thereafter.

Reason: In the interests of visual amenity and to ensure a satisfactory standard of appearance upon the completion of the development and to ensure no net loss of biodiversity in accordance with Policies CS12 and CS19 of the Gravesham Local Plan Core Strategy 2014.

3. The approved access/parking/turning arrangements shall be laid out within 2 months of the date of this decision and thereafter shall be retained at all times when the caravans are in occupation until such time as they are required to be removed by virtue of condition no. 9.

Reason: In the interests of residential amenity and highway safety and in accordance with Policies CS11 and CS19 of the Gravesham Local Plan Core Strategy 2014.

4. Within 2 months from the date of this decision notice, full details of the refuse storage and collection arrangements shall be submitted to and approved in writing by the Local Planning Authority. The development shall thereafter be carried out in full accordance with the approved details before the flats hereby permitted are first occupied and hereafter maintained.

Reason: In order to ensure the development is served by a suitable refuse storage area in the interest of amenity and in accordance with adopted Policy CS19 of the Gravesham Local Plan Core Strategy (2014).

5. No generators shall be used within the site unless details are submitted to and approved in writing by the Local Planning Authority.

Reason: In the interests of protecting the amenity of adjoining/nearby residential properties and safeguarding the amenities of the surrounding area in accordance with adopted Policy CS19 of the Gravesham Local Plan Core Strategy (2014).

6. No external lighting, whether temporary or permanent, shall be placed or erected within the site unless details are submitted to and approved in writing by the Local Planning Authority. Any details to be submitted shall be in accordance with the Institute of Lighting Engineers Guidance Notes for the Reduction of Obtrusive Lighting, GN01, dated 2005 (and any subsequent revisions), and shall include a layout plan with beam orientation and a schedule of light equipment proposed (luminaire type; mounting height; aiming angles and luminaire profiles). Any details to be submitted shall also follow the recommendations within the Bat Conservation Trust and Institution of Lighting Professionals 'Guidance Note 08/18: Bats and Artificial Lighting in the UK' (or subsequent updates). The development shall thereafter be carried out in accordance with the approved details and maintained as such thereafter.

Reason: In order to limit the impact of the lighting on wildlife with regard to Policies CS12 and CS19 of the Gravesham Local Plan Core Strategy 2014.

7. There shall be no more than 2 static mobiles homes [as defined in the Caravan Sites and Control of Development Act 1960 and the Caravan Sites Act 1968 as amended], stationed on the site at any one time, and no more than 2 touring caravans to be stored on site, of which only the 2 static mobile homes shall be occupied.

Reason: In order to ensure a satisfactory standard of development within the Green Belt upon completion, in accordance with Policies CS02, CS12 and CS19 of the Gravesham Core Strategy 2014 and para. 135 and section 13 of the National Planning Policy Framework 2024.

8. Notwithstanding the provisions of Article 3, Part 5, Class A of Schedule 2 to the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended), or any provision equivalent to that Class in any statutory instrument replacing, revoking or re-enacting that Order, with or without modification, no additional caravans shall be stationed on the site.

Reason: To ensure that any future increase in the number of caravans at the application site can be assessed in relation to the impact on the Green Belt and in accordance with paragraphs 81 and 150 of the National Planning Policy Framework 2024, Policies CS02, CS07, CS11, CS12 and CS19 of the Gravesham Local Plan Core Strategy 2014 and Saved Policy C10 of the Gravesham Local Plan First Review 1994.

9. When there is no longer a need for the site for the stationing of the static caravans, the use hereby permitted (including all associated Day Room, container, bin storage, parking/turning areas, amenity space, drainage, etc) shall be discontinued and all caravans and operational development shall be removed from the site and the land restored to its former condition no later than 6 months following the cessation of the use.

Reason: In the interests of the protection of this rural site in the Green Belt in accordance with paragraph 139 of the National Planning Policy Framework 2024 and Policy CS02 of the Gravesham Local Plan Core Strategy 2014.

INFORMATIVES:-

1 STATEMENT OF POSITIVE AND PROACTIVE APPROACH TO DECISION-MAKING

In accordance with Article 35 (2) of the Town and Country Planning (Development Management Procedure) (England) Order 2015 (as amended), and paragraph 39 of the National Planning Policy Framework (NPPF) 2024, the Local Planning Authority has approached the assessment and determination of this application in a positive and creative way and, where appropriate, has worked pro-actively with the applicant to secure a development that is sustainable and that improves the economic, social and environmental conditions of the area, and that is in accordance with the Development Plan for the area.

2 DEVIATION FROM APPROVED PLANS

It is possible that any proposed deviation from the approved plans could be classed as a 'material' change requiring a further application/permission. In the event that any change is proposed, applicants are advised to seek advice from the Local Planning Authority [as proceeding without the necessary permissions could nullify this permission].

3 BUILDING REGULATIONS AND PARTY WALL ACT

This decision DOES NOT imply any consent which may be required under the Building Regulations or under any other enactment or provision. Nor does it override any private rights which any person may have relating to the land affected by this decision, including the provisions of the Party Wall etc. Act 1996.

4 NAMING & NUMBERING

As a result of the changes to this property, it appears that a change has to be made to the national property gazetteer. It is a legal requirement that a property or premises is registered.

The Naming and Numbering Certificate, when issued, will reduce location or delivery problems via Royal Mail or other carriers, and importantly for the Police, Ambulance, and Fire & Rescue services. Registration is also necessary to register to vote, for utility connections, and will avoid duplicate addresses.

The Naming and Numbering service is provided by the Borough Council. The on-line form is available at the Planning/House Numbering page of the council's web-site <http://www.gravesham.gov.uk/street-naming>. Please submit the application and the requisite fee in accordance with the guidance on the form.

5 CODE OF PRACTICE FOR CONSTRUCTION/DEMOLITION SITES WITHIN THE BOROUGH OF GRAVESHAM

This Code of Practice relates to all building sites in Gravesham and is given to ensure best practice is achieved equally throughout the borough. All aspects of the code apply to every building site and will only be altered on an individual basis if there are found to be special circumstances on that particular site. Any amendment made will be in writing by an authorised officer of the Environmental Health Department. The following circumstances are given where consideration will be given to a variation in the Code of Practice:-

- a) Where occupiers of noise sensitive properties are unlikely to be affected by the works.
- b) Where the work cannot be carried out during the hours specified because of the requirements of another authority such as the emergency services, utilities, traffic management authorities etc.
- c) Where the site location is isolated or where the works are in a mainly commercial/industrial area with few residential properties.

In all the above cases the onus will be on the applicants to provide written justification as to why the code should be varied. When making such a statement the applicant must include the following information where appropriate:-

- i) Location, nature and duration of works.
- ii) Measured/predicted noise levels and background levels.
- iii) Measured/predicted vibration levels.
- iv) Proximity and numbers of residential properties.
- v) Evidence of public consultation/information to persons likely to be affected.
- vi) Written evidence from the appropriate authority (in instances where b) above applies).

In order for adequate consideration to be given by this Council to a request for deviation from the Code of Practice, any proposal must be provided in writing to the Environmental Health Services Manager at least fifteen working days prior to the works starting.

On developments where construction/demolition is undertaken on contaminated land, work will be required to be carried out in a way which will be specified within conditions of the site's planning approval.

The requirements of this Code of Practice should prevent unnecessary disturbance to nearby residents. In the event of a nuisance being caused due to work not being carried out in an appropriate way, the council may take enforcement action to resolve the situation.

Please note compliance with Health and Safety requirements arising from construction/ demolition work shall be given priority over this Code of Practice.

BURNING OF MATERIAL

It is expected that no burning of materials shall take place on a construction or demolition site. Where the contractor is of the opinion that this is unavoidable he shall make representations to the council for consideration. No burning will be allowed to take place without written authority from a suitably authorised officer of the council. Any burning so authorised will be subject to strict controls which will include, amongst other matters, the following:-

- A strict control on the amount of material burnt at any one time.
- Burning is carried out under the direct and continuous supervision of the person responsible for the site or a person authorised to act on his behalf.
- All material shall be kept dry prior to being burnt.
- The wind shall be positively blowing away from nearby residential or other sensitive buildings. Where this is not possible burning shall take place in still weather.

NOISE AND VIBRATION

Where sensitive premises are likely to be affected by noise and/or vibration, all works and ancillary operations which are audible at the site boundary, or at such other place as may be agreed with the council, shall be carried out only between the following hours (these to be known as normal working hours) : -

Monday - Friday 08:00 - 18:00

Saturdays 08:00 - 13:00

Sunday and Bank Holidays. No works audible at the site boundary or any other place agreed by the council.

In addition to the above times the contractor may use up to one hour before and up to one hour after normal working hours for start up and close down of activities. Examples of these activities would be:

- a) Day to day maintenance, checking, lubrication and cleaning/washing down of plant and machinery.
- b) Refuelling of plant and machinery (from on-site storage facilities only).
- c) Deliveries and unloading.
- d) Site inspections and safety checks, but excluding any works necessary to make the working zone and/or construction site safe (which are to be undertaken within normal working hours).
- e) Arrival and departure of workforce and staff at the construction site, but only in so far as the arrival and departure times provide for the minimum time necessary to undertake the tasks allowed by these start up/close down activities.
- f) Site meetings.
- g) Site clean up.

NB The start up and close down periods are not to be regarded as an extension to the normal working day.

Where the site boundary/entrance is located adjacent to noise sensitive areas it must be ensured as far as possible that vehicles do not arrive on site outside the times laid out above. Where this is found not to be possible, drivers of vehicles arriving at the site before it is open must not leave the vehicle's engine running or cause other excessive noise/pollution whilst they are waiting.

On the site itself, best practicable means as defined in section 72 of the Control of Pollution Act 1974 to reduce noise to a minimum shall be employed at all times.

Compliance with BS5228 Part 1:1997 'Noise control on Construction & Open sites' is expected as a minimum standard. This requires amongst other things that all plant and machinery in use shall be properly silenced, maintained and used in accordance with the manufacturer's instructions.

Criteria and procedures for vibration control are assessed using different parameters as follows:

- * Vibration Dose Values (VDVs) are used to protect the occupants and users of buildings from disturbance. (VDVs are defined in BS 6841 and their application is discussed in BS 6472).
- * Peak Component Particle Velocity is used to protect buildings from risk of physical damage. These are assessed in accordance with BS 7385.

Best Practicable means shall be used to control vibration levels so that the following Vibration Dose Values measured on a normally loaded floor in accordance with BS 6472:1994 are not routinely exceeded as a result of works.

Building Type	Period	VDV (ms ^{-1.75})
Residential Buildings, Educational Establishments, Offices and similar	Normal working hours	0.4
Commercial	Normal working hours	0.8

Best Practicable Means shall be used to control Peak Component Particle Velocity measured at the base of any building in accordance with BS 7385 does not routinely exceed a level of 10 mm/s.

In instances where complaints of vibration are received within any adjacent property then the contractor shall immediately take all measures necessary to demonstrate that the vibration levels are below the limits shown in the paragraphs above.

Where the results of any monitoring indicate non-compliance with the limits stated above, the contractor shall immediately change the method of working, and/or the plant being used. Prior to the work recommencing, the contractor shall satisfactorily demonstrate that the new arrangements satisfy the vibration limits.

DUST

Dust suppression techniques shall be used on site where significant quantities of spoil or fine aggregates are stored and/or where the site location is such that it is likely persons living in residential properties are going to be affected by wind blown dust.

Spoil temporarily placed on site shall be located as far away from sensitive properties as possible. The height of stored material shall be kept as low as is practical and water sprayed onto the surface of the piles shall be used as appropriate to keep the surface damp.

Where longer term storage of fine aggregates and other potentially dusty material is necessary, suitable storage facilities shall be used where practicable in order to screen these materials from the wind. This stored material shall be located so that it is as far away from sensitive properties as possible and measures to prevent wind blown dust shall be adopted. These shall include:-

- * keeping the height of stock piles as low as possible,
- * using water sprays as appropriate whilst minimising the production of excessive runoff,
- * minimising the re handling of dry construction materials and spoil,
- * keeping the loading drop heights to as low as possible,
- * where appropriate applying the surfaces of roads on site with water sprays as necessary and/or using wheel-washing facilities.
- * all materials transported to and from the site shall be conveyed by suitable vehicles in enclosed containers or using other adequate wind shielding measures such as sheeting.

The person responsible for the site shall keep on site a daily log book which will be available to visiting authorised officers and shall list the following:-

- * the conditions on site,
- * whether any wind blown dust was visibly coming off the site,
- * what control measures were carried out, and
- * what the results of these were.

COMMUNICATION

It shall be a matter of priority for a contact name and telephone number to be set up in order to enable ready two-way communication and contact with the council and local residents. In cases where work likely to cause a disturbance is to be carried on out of normal working hours, the phone line would be manned whilst the work is ongoing.

LIGHTING

Where security and/or site lighting is used, this shall be located and directed or screened so that it does not cause undue intrusion to adjacent occupied residential properties, or sensitive areas, or constitute a road hazard, and shall be chosen to limit light pollution effects such as "glow in the sky".

NOTIFICATION TO APPLICANT

APPEALS TO THE SECRETARY OF STATE

- If you are aggrieved by the decision of your Local Planning Authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under Section 78 of the Town and Country Planning Act 1990.
- If this is a **householder application*** which has been refused and you want to appeal against your Local Planning Authority's decision then you must do so within **12 weeks of the date of this notice**.
- For all other applications, refused or permitted, if you want to appeal against your Local Planning Authority's decision then you must do so within 6 months of the date of this notice.
- **For further information regarding Appeals and to make an application please click the relevant link:**
<https://www.gov.uk/appeal-householder-planning-decision>
<https://www.gov.uk/appeal-planning-decision>
- The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.
- The Secretary of State need not consider an appeal if it seems to him that the Local Planning Authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.
- In practice, the Secretary of State does not refuse to consider appeals solely because the Local Planning Authority based their decision on a direction given by him.

***Householder applications**

These are:

- (a) applications for planning permission for development of an existing dwellinghouse, or development within the curtilage of such a dwellinghouse for any purpose incidental to the enjoyment of the dwellinghouse, or
- (b) an application for any consent, agreement or approval required by or under a planning permission, development order or local development order in relation to such development

but does **not** include –

- (i) an application for change of use;
- (ii) an application to change the number of dwellings in a building.

PURCHASE NOTICES

If either the Local Planning Authority or the Secretary of State for the Environment refuses permission to develop land or grants it subject to conditions, the owner may claim that he/she can neither put the land to a reasonably beneficial use in its existing state nor can he/she render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.

In these circumstances, the owner may serve a purchase notice on the Council (District Council, London Borough Council or Common Council of the City of London) in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990.
