

Application: 20241170

**TOWN AND COUNTRY PLANNING ACT 1990
THE TOWN AND COUNTRY PLANNING (DEVELOPMENT MANAGEMENT PROCEDURE)
(ENGLAND) ORDER 2015 (AS AMENDED)**

NOTIFICATION OF GRANT OF PERMISSION TO DEVELOP LAND
--

To: **Gravesham Council
C/O Daniel Burkin, Frankham Projects
Irene House
7B Five Arches Business Park
Maidstone Road
Sidcup
DA145AE**

TAKE NOTICE that the **GRAVESHAM BOROUGH COUNCIL**, the Local Planning Authority under the Town and Country Planning Acts, has **GRANTED PERMISSION** for development of land situate at:

**107 Vale Road
Northfleet
Gravesend
Kent
DA11 8DB**

and being **Demolition of existing single storey dwellinghouse and erection of replacement two storey dwelling, with rear garden, cycle parking, refuse storage, driveway and air source heat pump.** Your application dated 21st November 2025 is permitted subject to the following:-

1. The development to which this permission relates must be begun not later than the expiration of three years beginning with the date on which this permission is granted.

In pursuance of Section 91 of the Town and Country Planning Act 1990, as amended by Section 51 of the Planning and Compulsory Purchase Act 2004.

2. The development hereby permitted shall be carried out only in precise accordance with the following schedule of approved plans and documents:

Planning Application Form Dated 20 December 2024;

Design and Access Statement;

Drawing No. 100 Rev 0 - Site Location Plan;

Drawing No. 110 Rev U and 140 Rev U - Proposed Site (Roof) Plan;

Drawing No. 100 Rev E - Existing Site Plan;

Drawing No. 110 Rev E - Existing Floor Plans;

Drawing No. 201 Rev E - Existing Elevations;

Drawing No. 112 Rev U - Proposed Floor Plans;

Drawing No. 210 Rev U - Proposed Elevations;

Drawing No. 210 Rev E - Proposed Elevations;

Drawing No. 111 Rev U - Proposed Ground Floor Site Plan

Drawing No. 220 (Existing Sunlight Analysis)

Daylight and Sunlight Report Dated 14 April 2025

Highways Response from Motion Dated 05 June 2025

Highways Technical Note from Motion Dated 09 September

Energy Statement by Consult Sustainability Dated September 2024

Preliminary Bat Roost Assessment by Consult Sustain Dated 21 October 2025

Drainage Impact and Flood Risk Assessment by Tridax Dated October 2025

Noise Impact Assessment by dBA Acoustics Dated 03 September 2024

Reason: For the avoidance of any doubt and in the interest of proper planning in accordance with Policy CS19 of the Gravesham Local Plan Core Strategy (September 2014).

3. Notwithstanding the details shown on the approved plans and application form before any above ground works commence, additional details (and samples where requested by the Local Planning Authority) of all the external facing materials to be used in the construction of the development hereby permitted shall be submitted to and approved in writing by the Local Planning Authority. The development shall thereafter be carried out in accordance with the approved details.

Reason: To maintain the character and appearance of the building and to ensure a satisfactory visual relationship between the existing and new development in accordance with adopted Policy CS19 Gravesham Local Plan: Core Strategy (September 2014).

4. Prior to above ground works commencing, scheme of hard landscaping shall be submitted to and approved in writing by the Local Planning Authority. The landscaping works shall be completed in accordance with the approved details prior to the completion of the development or the first occupation of the residential unit whichever is sooner. The scheme shall include:

proposed boundary treatments,

proposed finished levels and contours,

details of any retaining walls, steps, railings, walls, fencing, gates or other supporting structures

Reason: To protect and enhance the visual amenity and the character of the area and to ensure a satisfactory environment for existing and future residents in accordance with Policy CS19 of the Gravesham Local Plan: Core Strategy (September 2014).

5. The building hereby permitted shall not be occupied until the side facing windows at ground floor level have been fitted with obscured glazing, and no part of that/those window[s] that is less than 1.7 metres above the floor of the room in which it is installed

shall be capable of being opened. Once installed the obscured glazing shall be retained thereafter.

Reason: In the interest of neighbouring amenity and in accordance with Policy CS19 of the Gravesham Local Plan Core Strategy (September 2014).

6. Prior to the first occupation of the development hereby approved and notwithstanding the details shown on the approved plans a scheme detailing the proposed soft landscaping shall be submitted to and approved, in writing, by the Local Planning Authority. The scheme shall include the type and species of planting to be carried out, to include their quantity and size as well as arrangements for aftercare. Thereafter the approved soft landscaping scheme shall be carried out in full during the first available planting season following first occupation of the dwelling. Any trees or plants that die, are damaged, removed or become diseased within five years from the date that the development is first brought into use shall be replaced with a species of a similar size and species during the next available planting season.

Reason: To ensure that the landscaping is maintained in the long term in the interests of the visual amenity of the development, in accordance with adopted Policy CS19 Gravesham Local Plan: Core Strategy (September 2014).

7. Prior to the first occupation of the development hereby approved and notwithstanding details on the approved plans details of the refuse arrangements shall be submitted to and approved in writing by the Local Planning Authority. The submitted details shall ensure adequate provision for non-recyclable waste, food waste and recyclable waste and security arrangements for the refuse stores. The approved refuse arrangements shall be provided prior to first occupation of the dwelling and thereafter be retained for such purposes at all times.

Reason: In order to ensure the development is served by a suitable refuse storage area in the interest of amenity and in accordance with adopted Policy CS19 Gravesham Local Plan: Core Strategy (September 2014).

8. Prior to first operation of the ASHP when operating at its maximum speed and output hereby approved, a post completion noise survey must be undertaken at the maximum operating speed by a competent qualified acoustic consultant. The results of the survey report shall be submitted to and approved in writing by the Local Planning Authority.

The post completion testing shall assess performance of the noise mitigation measures against the noise levels as set in the report 'Noise Impact Assessment Report' dated 3 September 2024 by dBA Acoustics (Report Ref: 1621.NIA.01).

If the post completion survey reveals that the noise emission limit as set out in the above report has not been met further noise mitigation shall be implemented.

The final noise mitigation scheme shall be operated and maintained thereafter.

Reason: To safeguard neighbour amenity, in accordance with Policy CS19 (Development and Design Principles) of the Gravesham Local Plan Core Strategy (2014).

9. All external lighting shall be in accordance with Bat Conservation Trust / Institute of Lighting Professional's 'Guidance Note 08/23 Bats and Artificial Lighting at Night'. The lighting shall be retained as such thereafter.

Reason: In order to ensure the development does not cause harm to local biodiversity by reason of the installation of intrusive lighting and in accordance Policy CS12 Gravesham Local Plan: Core Strategy (September 2014).

10. Prior to the first occupation of the development hereby approved, details for provision of cabling to enable charging facilities to be installed for an electric vehicle for the future occupants of the development shall be submitted to and approved in writing by the Local Planning Authority. The development shall be implemented in accordance with the approved details prior to the first occupation of the dwelling hereby approved to which the cabling applies.

Reason: To encourage the use of sustainable and more environmentally acceptable modes of transport, and in accordance with Policy CS11, CS18 and CS19 of the Gravesham Local Plan: Core Strategy (September 2014).

11. Notwithstanding the details shown on the approved plans, prior to any part of the development first coming into use full details of visibility splays for the vehicular access onto Vale Road shall be submitted to and approved in writing by the Local Planning Authority. The plans should also include details of physical barriers less than 0.6m in height to be erected within the pedestrian visibility splay, to restrict vehicular encroachment. The development shall be carried out in accordance with the approved details prior to the access first being brought into use and retained as such thereafter.

Reason In the interests of highway safety in accordance with Policy CS11 of the Gravesham Local Plan Core Strategy (September 2014).

12. No development under the provisions of Article 3 of and Classes A and B and C of Part 1 of Schedule 2 to the Town and Country Planning (General Permitted Development) Order 2015 as amended (or any provision equivalent to those Classes in any Statutory Instrument replacing, revoking or re-enacting that Order with or without modification) shall be carried out on the dwelling or within the curtilage of the site unless a specific grant of planning permission has been given by the Local Planning Authority.

Reason: To enable the Local Planning Authority to retain control over the development of the site and in the interests of local amenity and in accordance with adopted Policy CS19 Gravesham Local Plan: Core Strategy (September 2014).

13. Notwithstanding the provisions of Article 3, and Part 1 Classes A and G of Schedule 2 of the Town and Country Planning (General Permitted Development) (England) Order 2015, as amended, or any provision equivalent to those Classes in any statutory instrument revoking and re-enacting that Order, with or without modification, no window, door or other form of opening shall be formed in any elevation of the dwelling hereby permitted.

Reason: In order to protect the amenity and privacy of the occupants of the neighbouring properties in accordance with Policy CS19 of the Gravesham Local Plan: Core Strategy (2014).

14. A watching brief during construction in case any unexpected contamination is encountered during the groundwork phase. Workers on site during construction should be advised by the applicant that there is a possibility of finding contaminated material. If during development any contamination is found, the Local Planning Authority should be informed as soon as practical and development shall be suspended and a risk assessment carried out and submitted to the Local Planning Authority for written approval. Where unacceptable risks are found, remediation and verification schemes shall be submitted to and approved in writing by the Local Planning Authority. Construction work shall not continue until written agreement is provided by the Local Planning Authority that appropriate measures to resolve the matter, including the measures in the remediation and verification schemes, have been completed.

Reason: To safeguard human health and the natural environment, in accordance with Policy CS19 (Development and Design Principles) of the Gravesham Local Plan Core Strategy (2014).

INFORMATIVES:-

1 STATEMENT OF POSITIVE AND PROACTIVE APPROACH TO DECISION-MAKING

In accordance with Article 35 (2) of the Town and Country Planning (Development Management Procedure) (England) Order 2015 (as amended), and paragraph 39 of the National Planning Policy Framework (NPPF) 2024, the Local Planning Authority has approached the assessment and determination of this application in a positive and creative way and, where appropriate, has worked pro-actively with the applicant to secure a development that is sustainable and that improves the economic, social and environmental conditions of the area, and that is in accordance with the Development Plan for the area.

2 BIODIVERSITY NET GAIN

The effect of paragraph 13 of Schedule 7A to the Town and Country Planning Act 1990 is that planning permission granted for the development of land in England is deemed to have been granted subject to the condition "(the biodiversity gain condition)" that development may not begin unless:

- (a) a Biodiversity Gain Plan has been submitted to the planning authority, and
- (b) the planning authority has approved the plan.

The local planning authority, for the purposes of determining whether to approve a Biodiversity Gain Plan if one is required in respect of this permission would be Gravesham Borough Council.

There are statutory exemptions and transitional arrangements which mean that the biodiversity gain condition does not always apply. These are listed below.

Based on the information available this permission is considered to be one which will require the approval of a biodiversity gain plan before development is begun because none of the statutory exemptions or transitional arrangements listed below are considered to apply.

Statutory exemptions and transitional arrangements in respect of the biodiversity gain condition.

1. The application for planning permission was made before 12 February 2024.
2. The planning permission relates to development to which section 73A of the Town and Country Planning Act 1990 (planning permission for development already carried out) applies.
3. The planning permission was granted on an application made under section 73 of the Town and Country Planning Act 1990 and
 - (i) the original planning permission to which the section 73 planning permission relates* was granted before 12 February 2024; or
 - (ii) the application for the original planning permission* to which the section 73 planning permission relates was made before 12 February 2024.
4. The permission which has been granted is for development which is exempt being:
 - 4.1 Development which is not 'major development' (within the meaning of article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order 2015) where:
 - i) the application for planning permission was made before 2 April 2024;
 - ii) planning permission is granted which has effect before 2 April 2024; or
 - iii) planning permission is granted on an application made under section 73 of the Town and Country Planning Act 1990 where the original permission to which the section 73 permission relates* was exempt by virtue of (i) or (ii).
 - 4.2 Development below the de minimis threshold, meaning development which:
 - i) does not impact an onsite priority habitat (a habitat specified in a list published under section 41 of the Natural Environment and Rural Communities Act 2006); and
 - ii) impacts less than 25 square metres of onsite habitat that has biodiversity value greater than zero and less than 5 metres in length of onsite linear habitat (as defined in the statutory metric).
 - 4.3 Development which is subject of a householder application within the meaning of article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order 2015. A "householder application" means an application for planning permission for development

for an existing dwellinghouse, or development within the curtilage of such a dwellinghouse for any purpose incidental to the enjoyment of the dwellinghouse which is not an application for change of use or an application to change the number of dwellings in a building.

4.4 Development of a biodiversity gain site, meaning development which is undertaken solely or mainly for the purpose of fulfilling, in whole or in part, the Biodiversity Gain Planning condition which applies in relation to another development, (no account is to be taken of any facility for the public to access or to use the site for educational or recreational purposes, if that access or use is permitted without the payment of a fee).

4.5 Self and Custom Build Development, meaning development which:

- i) consists of no more than 9 dwellings;
- ii) is carried out on a site which has an area no larger than 0.5 hectares; and
- iii) consists exclusively of dwellings which are self-build or custom housebuilding (as defined in section 1(A1) of the Self-build and Custom Housebuilding Act 2015).

4.5 Development forming part of, or ancillary to, the high speed railway transport network (High Speed 2) comprising connections between all or any of the places or parts of the transport network specified in section 1(2) of the High Speed Rail (Preparation) Act 2013.

* "original planning permission means the permission to which the section 73 planning permission relates" means a planning permission which is the first in a sequence of two or more planning permissions, where the second and any subsequent planning permissions are section 73 planning permissions.

Irreplaceable habitat

If the onsite habitat includes irreplaceable habitat (within the meaning of the Biodiversity Gain Requirements (Irreplaceable Habitat) Regulations 2024) there are additional requirements for the content and approval of Biodiversity Gain Plans.

The Biodiversity Gain Plan must include, in addition to information about steps taken or to be taken to minimise any adverse effect of the development on the habitat, information on arrangements for compensation for any impact the development has on the biodiversity of the irreplaceable habitat.

The planning authority can only approve a Biodiversity Gain Plan if satisfied that the adverse effect of the development on the biodiversity of the irreplaceable habitat is minimised and appropriate arrangements have been made for the purpose of compensating for any impact which do not include the use of biodiversity credits.

The effect of section 73D of the Town and Country Planning Act 1990

If planning permission is granted on an application made under section 73 of the Town and Country Planning Act 1990 (application to develop land without compliance with conditions previously attached) and a Biodiversity Gain Plan was approved in relation to the previous planning permission ("the earlier Biodiversity Gain Plan") there are circumstances when the earlier Biodiversity Gain Plan is regarded as approved for the purpose of discharging the biodiversity gain condition subject to which the section 73 planning permission is granted.

Those circumstances are that the conditions subject to which the section 73 permission is granted:

- i) do not affect the post-development value of the onsite habitat as specified in the earlier Biodiversity Gain Plan, and
- ii) in the case of planning permission for a development where all or any part of the onsite habitat is irreplaceable habitat the conditions do not change the effect of the development on the biodiversity of that onsite habitat (including any arrangements made to compensate for any such effect) as specified in the earlier Biodiversity Gain Plan.

3 KENT COUNTY COUNCIL HIGHWAYS AND TRANSPORTATION

It is the responsibility of the applicant to ensure, before the development hereby approved is commenced, that all necessary highway approvals and consents where required are obtained and that the limits of highway boundary are clearly established in order to avoid any enforcement action being taken by the Highway Authority.

Across the county there are pieces of land next to private homes and gardens that do not look like roads or pavements but are actually part of the road. This is called 'highway land'. Some of this

land is owned by The Kent County Council (KCC) whilst some are owned by third party owners. Irrespective of the ownership, this land may have 'highway rights' over the topsoil.

Information about how to clarify the highway boundary can be found at <https://www.kent.gov.uk/roads-and-travel/what-we-look-after/highway-land/highway-boundary-enquiries>

The applicant must also ensure that the details shown on the approved plans agree in every aspect with those approved under such legislation and common law. It is therefore important for the applicant to contact KCC Highways and Transportation to progress this aspect of the works prior to commencement on site.

4 BUILDING REGULATIONS AND PARTY WALL ACT

This decision DOES NOT imply any consent which may be required under the Building Regulations or under any other enactment or provision. Nor does it override any private rights which any person may have relating to the land affected by this decision, including the provisions of the Party Wall etc. Act 1996.

5 NAMING & NUMBERING

As a result of the changes to this property, it appears that a change has to be made to the national property gazetteer. It is a legal requirement that a property or premises is registered.

The Naming and Numbering Certificate, when issued, will reduce location or delivery problems via Royal Mail or other carriers, and importantly for the Police, Ambulance, and Fire & Rescue services. Registration is also necessary to register to vote, for utility connections, and will avoid duplicate addresses.

The Naming and Numbering service is provided by the Borough Council. The on-line form is available at the Planning/House Numbering page of the council's web-site <http://www.gravesham.gov.uk/street-naming>. Please submit the application and the requisite fee in accordance with the guidance on the form.

6 DEVIATION FROM APPROVED PLANS

It is possible that any proposed deviation from the approved plans could be classed as a 'material' change requiring a further application/permission. In the event that any change is proposed, applicants are advised to seek advice from the Local Planning Authority [as proceeding without the necessary permissions could nullify this permission].

7 MAINS DRAINAGE

The foul sewage shall be removed by means of the mains drainage system and not by the use of non-mains sewerage systems, unless connection to the drainage system is not reasonably practicable. If foul sewage is to be removed using non-mains sewerage systems, a sewage treatment plant or septic tank system will be considered in preference to a cesspool. Such a system may require the prior consent of the Environment Agency under the terms of the Water Resources Act 1991. Applicants are therefore advised to discuss their requirements with the Environment Agency at the earliest opportunity. It should be ensured that the septic tank or cesspool is of adequate capacity to serve the proposed development and suitable access and hardstanding area shall be maintained to it on site.

DOMESTIC REFUSE ARRANGEMENTS: SINGLE DWELLINGS

The dwelling should have sufficient storage capacity to cope with the waste generated in between collections (1 week).

DOMESTIC REFUSE ARRANGEMENTS: ADVISORY NOTES

Plastic sacks are issues for solid waste storage and collection will be from the front entrance to the property adjacent to the road or footpath.

8 CODE OF PRACTICE FOR CONSTRUCTION/DEMOLITION SITES WITHIN THE BOROUGH OF GRAVESHAM

This Code of Practice relates to all building sites in Gravesham and is given to ensure best practice is achieved equally throughout the borough. All aspects of the code apply to every building site and will only be altered on an individual basis if there are found to be special circumstances on that particular site. Any amendment made will be in writing by an authorised officer of the Environmental Health Department. The following circumstances are given where consideration will be given to a variation in the Code of Practice:-

- a) Where occupiers of noise sensitive properties are unlikely to be affected by the works.
- b) Where the work cannot be carried out during the hours specified because of the requirements of another authority such as the emergency services, utilities, traffic management authorities etc.
- c) Where the site location is isolated or where the works are in a mainly commercial/industrial area with few residential properties.

In all the above cases the onus will be on the applicants to provide written justification as to why the code should be varied. When making such a statement the applicant must include the following information where appropriate:-

- i) Location, nature and duration of works.
- ii) Measured/predicted noise levels and background levels.
- iii) Measured/predicted vibration levels.
- iv) Proximity and numbers of residential properties.
- v) Evidence of public consultation/information to persons likely to be affected.
- vi) Written evidence from the appropriate authority (in instances where b) above applies).

In order for adequate consideration to be given by this Council to a request for deviation from the Code of Practice, any proposal must be provided in writing to the Environmental Health Services Manager at least fifteen working days prior to the works starting.

On developments where construction/demolition is undertaken on contaminated land, work will be required to be carried out in a way which will be specified within conditions of the site's planning approval.

The requirements of this Code of Practice should prevent unnecessary disturbance to nearby residents. In the event of a nuisance being caused due to work not being carried out in an appropriate way, the council may take enforcement action to resolve the situation.

Please note compliance with Health and Safety requirements arising from construction/ demolition work shall be given priority over this Code of Practice.

BURNING OF MATERIAL

It is expected that no burning of materials shall take place on a construction or demolition site. Where the contractor is of the opinion that this is unavoidable he shall make representations to the council for consideration. No burning will be allowed to take place without written authority from a suitably authorised officer of the council. Any burning so authorised will be subject to strict controls which will include, amongst other matters, the following:-

- o A strict control on the amount of material burnt at any one time.
- o Burning is carried out under the direct and continuous supervision of the person responsible for the site or a person authorised to act on his behalf.
- o All material shall be kept dry prior to being burnt.
- o The wind shall be positively blowing away from nearby residential or other sensitive buildings. Where this is not possible burning shall take place in still weather.

NOISE AND VIBRATION

Where sensitive premises are likely to be affected by noise and/or vibration, all works and ancillary operations which are audible at the site boundary, or at such other place as may be agreed with the council, shall be carried out only between the following hours (these to be known as normal working hours) : -

Monday - Friday 08:00 - 18:00
Saturdays 08:00 - 13:00
Sunday and Bank Holidays. No works audible at the site boundary or any other place agreed by the council.

In addition to the above times the contractor may use up to one hour before and up to one hour after normal working hours for start up and close down of activities. Examples of these activities would be:

- a) Day to day maintenance, checking, lubrication and cleaning/washing down of plant and machinery.
- b) Refuelling of plant and machinery (from on-site storage facilities only).
- c) Deliveries and unloading.
- d) Site inspections and safety checks, but excluding any works necessary to make the working zone and/or construction site safe (which are to be undertaken within normal working hours).
- e) Arrival and departure of workforce and staff at the construction site, but only in so far as the arrival and departure times provide for the minimum time necessary to undertake the tasks allowed by these start up/close down activities.
- f) Site meetings.
- g) Site clean up.

NB The start up and close down periods are not to be regarded as an extension to the normal working day.

Where the site boundary/entrance is located adjacent to noise sensitive areas it must be ensured as far as possible that vehicles do not arrive on site outside the times laid out above. Where this is found not to be possible, drivers of vehicles arriving at the site before it is open must not leave the vehicle's engine running or cause other excessive noise/pollution whilst they are waiting.

On the site itself, best practicable means as defined in section 72 of the Control of Pollution Act 1974 to reduce noise to a minimum shall be employed at all times.

Compliance with BS5228 Part 1:1997 'Noise control on Construction & Open sites' is expected as a minimum standard. This requires amongst other things that all plant and machinery in use shall be properly silenced, maintained and used in accordance with the manufacturer's instructions.

Criteria and procedures for vibration control are assessed using different parameters as follows:

- * Vibration Dose Values (VDVs) are used to protect the occupants and users of buildings from disturbance. (VDVs are defined in BS 6841 and their application is discussed in BS 6472).
- * Peak Component Particle Velocity is used to protect buildings from risk of physical damage. These are assessed in accordance with BS 7385.

Best Practicable means shall be used to control vibration levels so that the following Vibration Dose Values measured on a normally loaded floor in accordance with BS 6472:1994 are not routinely exceeded as a result of works.

Building Type	Period	VDV (ms-1.75)
Residential Buildings, Educational Establishments, Offices and similar	Normal working hours	0.4

Best Practicable Means shall be used to control Peak Component Particle Velocity measured at the base of any building in accordance with BS 7385 does not routinely exceed a level of 10 mm/s.

In instances where complaints of vibration are received within any adjacent property then the contractor shall immediately take all measures necessary to demonstrate that the vibration levels are below the limits shown in the paragraphs above.

Where the results of any monitoring indicate non-compliance with the limits stated above, the contractor shall immediately change the method of working, and/or the plant being used. Prior to the work recommencing, the contractor shall satisfactorily demonstrate that the new arrangements satisfy the vibration limits.

DUST

Dust suppression techniques shall be used on site where significant quantities of spoil or fine aggregates are stored and/or where the site location is such that it is likely persons living in residential properties are going to be affected by wind blown dust.

Spoil temporarily placed on site shall be located as far away from sensitive properties as possible. The height of stored material shall be kept as low as is practical and water sprayed onto the surface of the piles shall be used as appropriate to keep the surface damp.

Where longer term storage of fine aggregates and other potentially dusty material is necessary, suitable storage facilities shall be used where practicable in order to screen these materials from the wind. This stored material shall be located so that it is as far away from sensitive properties as possible and measures to prevent wind blown dust shall be adopted. These shall include:-

- * keeping the height of stock piles as low as possible,
- * using water sprays as appropriate whilst minimising the production of excessive runoff,
- * minimising the re handling of dry construction materials and spoil,
- * keeping the loading drop heights to as low as possible,
- * where appropriate applying the surfaces of roads on site with water sprays as necessary and/or using wheel-washing facilities.
- * all materials transported to and from the site shall be conveyed by suitable vehicles in enclosed containers or using other adequate wind shielding measures such as sheeting.

The person responsible for the site shall keep on site a daily log book which will be available to visiting authorised officers and shall list the following:-

- * the conditions on site,
- * whether any wind blown dust was visibly coming off the site,
- * what control measures were carried out, and
- * what the results of these were.

COMMUNICATION

It shall be a matter of priority for a contact name and telephone number to be set up in order to enable ready two-way communication and contact with the council and local residents. In cases where work likely to cause a disturbance is to be carried on out of normal working hours, the phone line would be manned whilst the work is ongoing.

LIGHTING

Where security and/or site lighting is used, this shall be located and directed or screened so that it does not cause undue intrusion to adjacent occupied residential properties, or sensitive areas, or constitute a road hazard, and shall be chosen to limit light pollution effects such as "glow in the sky".

9 WORKS OF CONSTRUCTION

Hours of work of construction site plant, equipment and machinery, should be restricted to not earlier than 7.00 a.m. and not later than 6.00 p.m. weekdays and Saturday working should be restricted to not earlier than 8.00a.m. and not later than 1.00 p.m. No work shall be carried out on Sundays, Bank or Public Holidays.

- i. Suitable sound attenuation shall be used at all times in respect of all plant, machinery and equipment in operation on site in order to aid prevention of noise nuisance. Compliance with BS 5228: Part 1: 1984 and subsequent amendments regarding the use of equipment on site will be required in appropriate cases.
- ii. A suitable method of control shall be used in order to aid prevention of dust nuisance arising from work activities on site.
- iii. Burning of waste materials shall not be carried out on site. Such materials are to be stored in a suitable receptacle, as far from residential accommodation as reasonably practicable, pending disposal off site.
- iv. Adequate arrangements shall be made to remove all waste material from the site on a regular basis and to dispose of it at a suitably licensed waste disposal site.

NOTIFICATION TO APPLICANT

APPEALS TO THE SECRETARY OF STATE

- If you are aggrieved by the decision of your Local Planning Authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under Section 78 of the Town and Country Planning Act 1990.
- If this is a **householder application*** which has been refused and you want to appeal against your Local Planning Authority's decision then you must do so within **12 weeks of the date of this notice**.
- For all other applications, refused or permitted, if you want to appeal against your Local Planning Authority's decision then you must do so within 6 months of the date of this notice.
- **For further information regarding Appeals and to make an application please click the relevant link:**
<https://www.gov.uk/appeal-householder-planning-decision>
<https://www.gov.uk/appeal-planning-decision>
- The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.

- The Secretary of State need not consider an appeal if it seems to him that the Local Planning Authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.
- In practice, the Secretary of State does not refuse to consider appeals solely because the Local Planning Authority based their decision on a direction given by him.

***Householder applications**

These are:

- (a) applications for planning permission for development of an existing dwellinghouse, or development within the curtilage of such a dwellinghouse for any purpose incidental to the enjoyment of the dwellinghouse, or
- (b) an application for any consent, agreement or approval required by or under a planning permission, development order or local development order in relation to such development

but does **not** include –

- (i) an application for change of use;
- (ii) an application to change the number of dwellings in a building.

PURCHASE NOTICES

If either the Local Planning Authority or the Secretary of State for the Environment refuses permission to develop land or grants it subject to conditions, the owner may claim that he/she can neither put the land to a reasonably beneficial use in its existing state nor can he/she render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.

In these circumstances, the owner may serve a purchase notice on the Council (District Council, London Borough Council or Common Council of the City of London) in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990.
