Analysis

Under Class A.1 (g) of the Town and Country Planning (General Permitted Development) (GDPO) (England) Order 2015, as amended, a single family dwelling can extend beyond the rear wall by 6 metres in the case of a terraced property, as long as it does not exceed 4 metres in height.

As stated in the GDPO, Class A.4 (2), the developer has provided sufficient information to support the application; application form, site location plan and additional plans. Overall, the information provided is in

accordance with the parameters set out in the GDPO; 4. 5 metres deep and a maximum height of 3.48 metres (2.8 meter eaves).

The adjoining properties were consulted in accordance with A.4 (5) and no representations were received. Therefore A.4 (7) has not been triggered and impact on neighbouring amenity does not require investigation.

It is considered that the details and documents provided with the application are sufficient and no further information is required under A.4 (8) to determine the proposed development.

Note – the eaves of the new extension are measured at the lowest point of the roof, which has a slight pitch down towards its rear wall at the height of 2.9m. Although on plan form it seems that the eaves of the extension are the higher than the main dwelling, these are the parapet edges and the eaves are taken from the main roof of an extension (see screenshots below for clarification)

Conclusion

The proposed development complies with **THE TOWN AND COUNTRY PLANNING (GENERAL PERMITTED DEVELOPMENT) (ENGLAND) ORDER 2015, AS AMENDED**, and it is considered that **PRIOR APPROVAL IS NOT REQUIRED**, subject to the imposition of informatives relating to the extent of this prior approval, the development to accord with the information provided, and requirement to comply with Building Regulations and Party Wall Act.
