Stance:	Customer made comments in support of the Planning Application

Reasons for comment:

Comments:	I believe planning permission should be granted for this project as it is an integral part of growth for the younger generation of the Muslim community. It gives a sense of belonging and purpose; it also ensures youngsters are given counselling and guidance and spend their time making meaningful connections by striving to become upstanding members of their community. I am a mum of two and am not able to always take my children to community activities but am hopeful this project will enable me to be able to be more consistent in helping them socialise as the building is within walking distance from my home. I also believe it gives the opportunity for other mums to come together and widen their social circles. The building was initially a pub with fights and loud music blaring every weekend, I don't see a problem with it being turned into an establishment that does not disturb its neighbours and make them feel unsafe to walk past at night.
