Reasons for comment:

Comments:	I am writing to express my full support for the planning application seeking permission to convert the Peacock into a mosque and community centre. There are several compelling reasons why this application should be approved: Fulfilling a Community Need! The proposed mosque would serve a genuine need within the local Muslim community, which currently lacks sufficient space for worship and community activity. This development would help ensure that religious and cultural needs are met in an inclusive and equitable manner. Revitalising an Unused Building! The public house has ceased trading and now stands unused. Rather than allowing the building to fall into disrepair, this proposal offers a sustainable and meaningful new use that would restore vitality to the site. Providing Broader Community Benefits! Beyond being a place of worship, the mosque is expected to act as a community hub-offering educational programs, charitable services, and social initiatives that could benefit residents of all backgrounds. Responsibility Toward Planning Regulations! The application appears to have taken care to address key planning considerations such as traffic, noise, parking, and accessibility. It meets the requirements set out in local planning policy and it should be viewed as a well-prepared and appropriate development. Promoting Cultural Diversity and Religious Freedom! Approving this conversion would be a positive reflection of the area's commitment to diversity, mutual respect, and the right to religious expression-values that are fundamental to a healthy, inclusive society.
-----------	--

I sincerely hope that the council will consider the many benefits this development would bring and approve the application!

Kind regards
