Commenter Type:	Member of the Public
Stance:	Customer made comments in support of the Planning Application

Reasons for comment:

Comments:	I am writing as a local business owner operating within close proximity to Peacock Street, and I wish to express my full support for the planning application to convert the building into a mosque and community centre. From a business perspective, increased foot traffic to the area for daily prayers and community events could positively affect nearby shops and services. Local businesses like mine would likely see indirect benefits from this development. Gravesham Town centre has been heavily affected by the constantly decreasing number of shops and retail stores and it is getting worse month on month. We need help from the council to boost footfall and encourage people to walk and contribute to the local economy. Organisations like these assist the social infrastructure of the town and contribute economically as well as spiritually and environmentally.
