Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	

Comments:

I object to this retrospective application for the following reasons

Unsuitable access to the site for large vehicles [touring caravans etc.]

White Post Lane in large parts is single track although erosion has taken place by mobile homes being moved along it and the destruction of trees to accommodate these large loads.

This site has seen devastating destruction of land that was previously farming/grazing land and was acknowledged as a site of outstanding natural beauty. Furthermore the 6ft fencing surrounding this site is in contravention to the openness of the landscape in a green belt area. See previous applications for this site.

This application is part of a large scale plan to further develop the site see application 20250764 and the lane is not suitable to the increase of traffic and would make it unsafe for walkers, horse riders and cyclists who frequently use the lane.

There are frequently dogs from the site wandering in the lane causing anxiety to drivers, not to mention the barking of the dogs sometimes going on for long periods of time and late into the night.

I object to the continued development without planning permission, but indicate a total disregard by the occupiers to follow the rules and laws in existence that we all abide by.

Over the past 20 years I have on average opposed to 2 planning applications per year and my reasons of objection have not changed, but object to be flooded by all these applications and hope that the council will look at the history of this site while considering this latest application.

Kind regards
