

20260117

I support this application

Altamirano

- There is a shortage of supply of housing in Gravesend over the next 5 years
- The property would be located within a short 5 minute walk of a transport hub – Sole Street Station with trains to London
- More bungalows are needed for an aging population who may not use cars hence the importance of being near to a transport hub
- Neighbours in the close vicinity in Sole Street have already split their gardens to allow an additional property to be built and this has been supported by the Parish Council, recently in Manor Road
- The new property is of modest size and in keeping with the nearby properties

Thank you
