Plans & Documents

Application Form;
Drawing No. 001 – OS Plan and Block Plan – Existing and Proposed;
Drawing No. 002 – Floor Plans – Existing and Proposed;
Drawing No. 003 – Elevations – Existing; and
Drawing No. 004 – Elevations – Proposed.

Property Type

37 Wrotham Road is a two storey terraced property.

Proposal

The application seeks prior approval under Class A, Part 1 Schedule 2 and Article 3 of the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended) for the erection of a single storey rear extension with a depth of 6.00 metres, a maximum height of 2.80 metres and an eaves height of 2.80 metres.

In the case of this application, there are two separate extensions proposed, one from the rear wall of the outrigger, and one from the other rear elevation of the dwelling. The extensions have differing depths, as set out in the assessment below, however the depth does not exceed 6.00m. In this instance, the description incorporating the maximum depth measurement was considered to be acceptable, and in any case, the dimensions are indicated on the plans that accompany the application, giving neighbours the opportunity to fully consider the proposal.

Assessment Note

A.3(a) – not enough information was provided to enable this question to be fully answered. However, it is not directly related to the Prior Approval Extension Application itself. The proposed single storey rear extension would need to adhere to all of the above to be considered permitted development and further information would be required in the event of a submission to obtain a Lawful Development Certificate.

Analysis

Under Class A.1 (g) of the Town and Country Planning (General Permitted Development) (GDPO) (England) Order 2015, as amended, a single family dwelling can extend beyond the rear wall by 6 metres in the case of a terraced property, as long as it does not exceed 4 metres in height.

As set out in the GDPO, Class A.4 (2), the developer has provided sufficient information to support the application; application form, site location and additional plans.

The information provided show the proposed development is within the parameters set out in the GPDO; not more than 6.00m metres deep, a maximum height of 2.80m metres, with a maximum eave height of 2.80 metres.

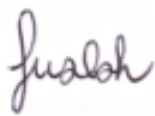

The adjoining properties were consulted in accordance with A.4 (5) and no representations were received. Therefore A.4 (7) has not been triggered and impact on neighbouring amenity does not require investigation.

It is considered that the details and documents provided with the application are sufficient and no further information is required under A.4 (8) to determine the proposed development.

Conclusion

The proposed development complies with **THE TOWN AND COUNTRY PLANNING (GENERAL PERMITTED DEVELOPMENT) (ENGLAND) ORDER 2015, AS AMENDED**, and it is considered **PRIOR APPROVAL IS NOT REQUIRED**, subject to the imposition of informatives relating to the extent of this prior approval, the development to accord with the information provided, and requirement to comply with Building Regulations and Party Wall Act.

Recommendation: <u>Prior Approval is not required</u>
