Reasons for comment:

Comments:

I hereby lodge an official objection to this application.

I do so with respect, it would appear, to being unable view the proposals drawings/design via the planning portal.

I appreciate the application narrative provides a summary of the submission.

As yet there has been no previous discussions with either the applicant, whom I assume is in the process of acquiring the property, and or the agent associated with the design of this proposal.

The first engagement being the formal submission from Gravesham Planning services dated the 19th March received by me on the 25th March.

I would therefore clearly value the ability to scrutinise the totality of the planning application as resident of the adjacent property.

As you will appreciate I am keen to have an idea of the scale and scope of the design and likely direct environmental impacts which only access to the totality of the design would provide.

I look forward to the opportunity to discuss this proposal further in due course.

Your assistance and direction in this matter is greatly appreciated.

Yours with kind regards.

[REDACTED]

Kind regards
