Reasons for comment:

Comments:	<p>The roads required to have access to this site are not suitable as they are not wide enough and far too busy to accommodate the construction vehicles while building nor the future day to day numbers that would be entering and exiting the estate. Green Lane you can just about fit two cars side by side while driving. There are two schools nearby that already have a wide catchment area so the only way if for students to be driven to school. There is already not adequate parking and the Wrotham Road is already used at the morning and evening school times. It can be very dangerous and drivers need to be cautious. There are articulated lorries regularly using the Wrotham Road and there are houses already so close. It is a residential area with lots of road running off Wrotham Road. The increase in traffic and pollution is not sustainable. The land in the planning application is a vast field used yearly for food production and also creating a calm and peaceful way of life. By building on this land, the oxygen levels will drop in the area which helps combat the pollution from Wrotham Road</p>
