Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	<p>The proposed site is on viable farmland, once it is developed it would be lost forever. The UK is not self sufficient for food production and with climate change this will become increasingly more important to aspire to. Developing viable, productive farmland goes against government net zero targets as alternative sources of good would need to make the shortfall, increasing food miles.</p> <p>The area is green belt, not grey belt and this would merge two distinct settlements: Meopham and Sole Street.</p> <p>At peak times it is difficult to access Wrotham Road from Green Lane, which extra traffic from this site would exacerbate.</p> <p>There is insufficient local infrastructure in terms of school places, capacity at medical facilities, public transport to the nearest town, and sewerage.</p> <p>There is insufficient site provides habitat and biodiversity to many species that would be lost is developed.</p>

Kind regards
