Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	<p>Objection for the following reasons:-</p> <p>No consideration has been given to the accumulative impact of all the planning applications for Meopham.</p> <p>Borough Green has planning applications for 3000 homes. All traffic heading to Bluewater will travel along the A227.</p> <p>There is inadequate reliable public transport (buses) which will encourage residents to use their cars to take children to school and to travel to the station.</p> <p>The destruction of ancient woodland will be irreversible</p> <p>The loss of greenbelt cannot be reversed</p> <p>Is there really the need for housing considering the population count in last census?</p> <p>Residence already face unimaginable difficulties with the construction of the Lower Thames Crossing and anticipate a considerable increase in HGV's cutting through from the M2/M20.</p> <p>No consideration has been given to the safety of school children who currently are already at risk by the amount of traffic on the A227</p> <p>We have insufficient schools, GP's and hospital capacity for meet the needs of additional residents.</p> <p>It is ridiculous that the application has been made in respect of grade 3 agricultural land</p> <p>There is an urgent need for an Environmental Impact Survey</p> <p>Kent Highways are deferring support/objection until 2027 which suggests serious concerns and flaws with the application.</p>

We are a linear village and there has been insufficient consideration given to sinkholes along the highway

We currently have to put up with a considerable number of traffic lights/road works and closures along the A227 resulting in gridlock on side roads and lanes with emergency services struggling to get through.

Three schools on the A227

Vehicles entering and leaving the site on to the A227 will put other road users at great risk.

Insufficient lighting along the A227 means pedestrians and cyclists will be a greater risk.

Kent Downs, conservation and listed buildings

Light pollution and catastrophic impact on the national landscape is very concerning.

Kind regards
