Reasons for comment:

Comments: As a resident whose family has lived in this area for over 40 years, I wholeheartedly support the application for a new mosque. We have seen the community grow and diversify over the decades, and it is only fitting that local facilities evolve to meet the needs of its residents. The proposed mosque would provide a much-needed space for worship, education, and community support - all of which would benefit the wider area, not just the Muslim population.

[REDACTED] I have no concerns regarding parking. Residential bays are already protected by controlled parking restrictions, which prevent unauthorised use. Most of those attending the mosque would be local, and would walk rather than drive. For those who do need to use a vehicle, there is ample public parking nearby that can accommodate them without impacting residents.

Kind regards
