

4th November 2024

Saunders Close
Northfleet
Kent DA11 8SJ

Attn: Planning Dept.

Ref: 20240905

Proposed extension to side of 18 Saunders Close

- [REDACTED]
1. No. 19 has windows on the side of their house, upstairs and downstairs, and any extension to No. 18 would severely restrict their daylight.
 2. Any building constructed would greatly impede No. 19 from parking alongside their property, in the space designated when the houses were originally built 40-odd years ago.
 3. No. 18 has 2 vehicles - a saloon car and a works van marked [REDACTED], plus a 3rd vehicle - [REDACTED], presumably a friend. Anyone of those vehicles is parked permanently, immediately in front of the house, in what is the TURNING POINT for the Cul-de-Sac.
 4. Where will the building materials be delivered and stored? No. 18 has no rear access. Likely they will be deposited on the Public Highway directly in front of the house and in the TURNING POINT.
 5. This would impede access to Nos. 9, 10, 11, 12, 14, 15, 16 and 17. Any delivery vans and larger vehicles, including the dust cart, will have even more difficulty manoeuvring if the Public Highway is obstructed.
 6. Also several of the residents who live in the aforementioned properties [REDACTED]
[REDACTED]
 7. As a [REDACTED] I strongly object to any aesthetic changes to the appearance of the Close.
 8. Have the residents in Riversdale, which backs on to No. 18, been consulted for their views (or lack of, if the extension is built)?

Signed
