Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments: I object to the development proposal on the basis of the following;

- Local infrastructure cannot cope with the additional demand, local road networks, junctions and amenities are at capacity and additional demand makes this dangerous
- The junction of Wrotham Road and Longfield Road is dangerous already at peak times when turning toward Meopham Green
- The junctions of the M2, A20 roundabouts are becoming increasingly busy and traffic is tailing back, these will have additional demand and traffic will be worse
- The cumulative impact of the various planning applications recently submitted in Meopham needs to be taken into consideration, they cannot be treated in isolation. Plus Ebbsfleet Garden City.
- Loss of green belt space which is integral to Meopham's identity and community spirit
- Train car park is near capacity during the working week, unreliable bus service - where will the additional cars using train services to London park?
- Cricketers Dr has experienced 13 power cuts in the last 8 months, unreliable supply is an existing problem. Additional demand will make this worse.
- Primary school impact is considered, what about secondary schools, nursery's, hospitals?

- We experience flooding issues during rainy periods, the loss of natural run off green space will worsen this existing issue.

Kind regards
