Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I object to this development on the grounds that it represents unnecessary and damaging overdevelopment in a rural area that is already under pressure. Meopham is not an urban environment and should not be treated as one. The proposed development would destroy green belt land that supports protected and declining species, including skylarks, bats, and birds of prey. These fields are clearly active wildlife habitats. We regularly observe swifts, swallows, kestrels and owls using this land, as well as evidence of invertebrates such as stag beetles and glow worms. This is not speculative - it is observable fact. At a time when the government is encouraging biodiversity protection and environmental responsibility, approving such a development would directly contradict those aims.

Kind regards
