Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	The infrastructure and roads cannot cope with the existing traffic The Doctors is full the school's are full The area is a brake between settlements and next to Kent down's national landscaping will effect the dark skies and effect the local wildlife The trains are full the railway bridges are narrow and may need structural work . This will increase the population with other sites all in the same area by at least one third of the current population There is no public transport that works well with local services Such as no direct link to Bluewater no buses on Sunday The road is dangerously narrow in places with no cycle lanes Or in some places no footpath For all these reasons I strongly Object to this purposed site

Kind regards
