Reasons for comment:

Comments:	<p>[REDACTED] increase in traffic, noise levels and damage to road and hedges in this area has been significant. The A227 is overloaded with vehicles almost all day. The addition of more daily traffic needing to access this road to attend work , school or for pleasure will make a significant difference. At school drop off and pick up the road virtually narrows to single file traffic as there is insufficient parking for children to be dropped and collected. Whenever the two major motorways at each end of A227 are in problems the road becomes impossible with not only domestic vehicles but heavy goods lorries to.</p> <p>The surrounding lanes cannot take more than single file traffic on most of them so where will all the cars needing to leave the proposed development go We hear constant news that the doctor's surgeries that serve this area are full to capacity, with no appointments available . I believe Culverstone school has expanded to its full capacity and there is no space to increase the buildings. Without serious consideration of providing suitable services for an additional 100 homes this proposal cannot be viable</p>
