Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	<p>I object to the proposed development on several grounds.</p> <ol style="list-style-type: none">1. There is little or no local employment so the residents of the new 100 houses will need to travel to and from work. The bus service is poor, so use of a car, motor bike or cycle is more likely, even to get to the railway station.2. This will significantly increase traffic on the A227, which is often congested, particularly when there are problems on the A2 and A20, increasing noise, pollution levels and risk of accidents.3. Additional children will put pressure on local schools and parking at school times will cause increased problems and friction. Parents parking in Willow Walk/Willow Wood Road/Wrotham Road at the local primary school start and finish times already cause problems and hazards which are ignored by the enforcement authority. It will only get worse.4. There is already insufficient health care infrastructure and additional residents will make getting to see a NHS Doctor/Dentist/Hospital Consultant more difficult.5. What provision has been made to deal with the increased volume of run off and waste water produced, both in terms of its transport and treatment, bearing in mind the current high levels of river pollution being experience.6. There are still considerable 'brown field' areas available in Gravesham. Whilst not so profitable for the developer they should be fully used before taking such land and altering for ever the character this area.
