Reasons for comment:

Comments:	To build 100 homes in this area would be devastating. The impact on the a227, which is already fraught with traffic issues, adding another possible 150 to 200 plus cars exiting and entering from the proposed entrance would be catastrophic. The noise and pollution would increase and all near to a children's school which as we know can cause children's health to suffer The GP surgery's in meopham and surrounding areas are already full to breaking point, let alone the impact on schools and other public services. The wildlife in the area would also suffer, the natural diversity of the land being changed and their habitats destroyed and again affecting the air quality. I can not emphasise enough that this isn't the place to build this many houses which again will not be affordable housing and using green/grey belt when there are brown sites available in gravesham that are not being utilised.
